

**Matthew 25:40**

**“The King will reply, ‘Truly I tell you, whatever you did for one of the least of these brothers and sisters of mine, you did for me.’”**

# Cuba And International Project

The ministry teaches how to start and run businesses to help overcome poverty and improve the well-being of communities. This is often done in a seminar format at local Churches or institutions. We partner with Campus Crusade representatives and incorporate Christian principles into our teachings. We also help support mission pastors, churches, and other groups on a case-by-case basis in the countries where we operate. For example, in Cuba, we have funded over 55 pastors at mission churches for a year or more as they work to establish new churches. At the invite of Campus Crusade, we also talk to students at Universities, community groups or other institutions.

Several thousand have now attended our seminars over the past 20 years. We are currently working in Dominican Republic.

The ministry has also worked in Kenya, Nicaragua, Ghana and Cuba on similar outreach work and seminars.

Team Member Jerry Low with Mission Church Planter

The ministry is now fundraising for its second mission trip to Dominican Republic, scheduled for 2025. Funds will be used to support the seminars, mission expenses, local Campus Crusade representatives that work alongside the team and support for the disadvantaged churches and pastors.

We have already met with 50 local pastors and are targeting to reach churches that are approximately a 40-minute drive from the Haitian border. This is one of the poorest areas of the Dominican. The seminars help provide the skill sets to alleviate poverty through entrepreneurial training.

Our hope is that you would please consider supporting this next mission trip and be connected to this community and the impact this ministry is having overseas.

Pastor opening seminar in Cuba
